Gagan Mahana
Founder & Principal Designer
Arch Studio18

There is nothing as satisfying as following your passion and weaving a career out of it. **Founder and Principal Designer of Arch Studio18, Gagan Mahana** did exactly that.

Gagan had planned to start his firm in 2018 but eventually it materialized in 2019. His family business being related construction and construction materials, his firm was just the right combination for the already existing business.

In the ever-evolving world of architecture and interior design, Arch Studio18 (New Delhi) stands tall as a testament to the fusion of tradition and innovation. This dynamic firm draws inspiration from a rich family history in the construction and materials industry. With his father at the helm of a successful imported and Indian granite company for over 35 years, the stage was set for Gagan to diversify

and embark on an entrepreneurial journey of his own.

A Journey Driven by Passion

Though Arch Studio18's inception was originally planned for 2018, Gagan felt compelled to pursue a deeper understanding of design by immersing himself in the world of interior architecture after completing his schooling. However, a year later, his unwavering attraction to architecture led him to embrace a fresh start and embark on a quest to master the fundamentals.

Academic Excellence & Professional Growth

Completing his Bachelor's in Architecture from the prestigious institution in Chandigarh, Gagan wasted no time in gaining hands-on experience. He joined a residential-focused firm as a novice, despite facing challenges such as inadequate compensation and delayed payments. Undeterred by these hurdles, Gagan maintained a positive outlook, recognizing the importance of mastering the intricacies of both office and on-site work.

Seizing Opportunities

Through dedication and determination, Gagan rapidly honed his skills, leveraging the invaluable experience gained

during his tenure at the firm. As the year progressed, he developed the confidence and expertise required to establish his own architectural and interior design consultancy service. Leveraging its own invested builder projects and extensive network within the materials industry, Arch Studio18 quickly gained recognition for its exemplary services.
